✉ bmbowdish@live.com
Github: https://github.com/bmbowdish

## Education

– **Rochester Institute of Technology**, *Bachelors of Science*, Computer Science, Expected Graduation: 2020.

## Experience

### Projects

– **Event Keeper**, *(github.com/bmbowdish/Event-Keeper)*, Personal project that keeps attedance for meetings at Computer Science House, Fall 2015.

– **qr-wiki**, *(github.com/bmbowdish/qr-wiki)*, Personal Project that creates qr-codes that link to a private mediawiki run by Computer Science House, 2016.
Spring 2016

– **LED Matrix**, *https://github.com/bmbowdish/LED-Hackathon-Matrix*, LED Matrix. Four buttons can move which LED is turned on. A fifth button helps choose between two modes where the 4 buttons work differently. I also learning about Matrix Multiplexing so any combination of lights can be turned on with the matrix, Fall 2016.

## Technical Skills

**LaTeX, Python, C, Java, Git, Github**

## Extracurriculars

| | |
|---|---|
| Computer Science House | Living-learning community for people interested in Computer Science. 2015-Now |
| Constitutional Maintainer | Maintained a LaTeXConstitution for Computer Science House. Using Github for version control github.com/ComputerScienceHouse/Constitution/ . 2016-Now |
| CSH Executive Board | History Director. Leading weekly meetings, planning large (90+) events, writing alumni newsletters, and more. Fall 2016 |

## Relevant Classes

○ Data Structures
○ Object Oriented Programming
○ Mechanics of Programming

## Objective

- Seeking a summer Co-op for summer of 2016 or Spring to Summer Co-op in 2017.
